

# PETRIK LABORATORIES, INC.

## Manurex™

Manurex is a natural organic microbial blend for organic matter digesting used in liquid or high moisture environments. Manurex has been used around the world for over 20 years.

### Benefits of using Manurex for lagoon composting

- Eliminates obnoxious odors.
- Promotes a quick and efficient organic matter digestion.
- Treated manure used on fields will not harm the balance of life.
- Treated manure will improve the soil structure, texture, and fertility.
- Increases the solubility of solids in manure pits, slurry stores, lagoons, and municipal treatment plants.
- Works effectively in adverse conditions such as digestion of fatty acids and esters.

In Manurex Petrik Laboratories' expertise in microbiology combines microorganisms into an effective material used for a wide range of organic decomposition and BOD reducing needs.

### Manure Pits:

Manurex is used for odor elimination and solids reduction. Eliminates the need for frequent cleaning. Ecologically sound composting and pathogen reduction.

### Chicken Houses:

Manurex is used for ammonia reduction and composting, helping with odor and pathogen reduction.

### Municipal Waste Facilities:

Manurex is used for BOD reduction and hydrogen sulfide elimination.
